

Brief Report on Visit of Foreign University Experts for Prospective MoU

Long form

A delegation of experts from Singapore University of Technology and Design visited Sri Venkateswara College of Engineering and Technology Chittoor on 23.05.2026 with the objective of exploring opportunities for academic collaboration and institutional partnership through a prospective Memorandum of Understanding (MoU).

During the visit, the delegation consisting of Dr Yeaz Elias Jadoo, Associate Program Director, Security by Design and Information Systems Technology and Design, Singapore University of Technology and Design and Mr N. Saravanan, Technical Director, Techno Diverge link SDN BHD, Malaysia interacted with the principal, senior faculty members, and heads of departments. The discussions focused on potential areas of collaboration including student and faculty exchange programs, joint research initiatives, internship opportunities, curriculum development, skill enhancement programs and collaborative international projects.

The experts visited laboratories, classrooms, research centers, library facilities and incubation centers of the College to understand the academic environment and institutional capabilities.

Both institutions expressed mutual interest in establishing long-term academic cooperation aimed at enhancing global exposure, research collaboration, quality education, and internationalization initiatives. The visit concluded with positive discussions on initiating the formal process for signing an MoU in the near future.

The visit marks an important step towards strengthening international academic partnerships and creating global learning opportunities for students and faculty at Sri Venkateswara College of Engineering and Technology.
